

SACHIN

ASPIRING CYBERSECURITY ANALYST PENETRATION TESTING ENTHUSIAST

☎ +91 9878700434 | ✉ sachinu0404@gmail.com |  [Linkdin](#) |  [portfolio](#) |  [Github](#)

SUMMARY

Cybersecurity enthusiast currently pursuing the Google Cybersecurity Professional Certificate on Coursera with a strong interest in penetration testing and network security. Familiar with vulnerability assessment, password security analysis, and basic security tools such as Wireshark and Nmap. Eager to apply cybersecurity knowledge to real-world security challenges.

EDUCATION

B.Tech- Electronics and Computer Engineering 2023-2027
(From Guru Nanak Dev University Amritsar)

- Relevant Coursework: Network Security, Operating Systems, Computer Networks

PROJECTS

Password Security Analyzer | Python, Cybersecurity

- Developed Python tool analyzing password strength across 6 security parameters.
- Implemented scoring algorithm providing real-time feedback to users.
- Achieved 90% accuracy in identifying weak passwords in testing scenarios

Face Lock System - Computer Vision Project

- Built a face recognition system for secure user authentication.
- Implemented facial detection and matching for access control.
- Demonstrated understanding of biometric authentication and security concepts.

Hardware Project Developer | Self-Directed

- Designed and built 3+ hardware projects including Bluetooth RC car and sensor-based systems
- Integrated microcontrollers with Bluetooth modules, motors, and sensors for functional prototypes.

EXPERIENCE

- Developed cybersecurity projects using Python, Kali Linux, Nmap, and Wireshark.
- Built a Password Security Analyzer to evaluate password strength and security parameters.
- Developed a Face Lock System for secure authentication using facial recognition.
- Designed and built hardware projects including a Bluetooth-controlled Arduino RC car.
- Integrated Arduino, HC-05 Bluetooth, sensors, motors, and motor drivers into functional prototypes.

CERTIFICATIONS

- Cyber Security with AI - Internshala Trainings | 2026
- Ethical Hacking Certification | Zaid Sabih, Udemy | 2025

SKILLS

- Security Tools: Wireshark, Nmap, Kali Linux, Git, Burp Suite (learning)
- Programming: Python (password analysis tools), SQL (basic queries)
- Networking: TCP/IP, Network Security Fundamentals, OSI Model
- Hardware/IoT: Arduino, Bluetooth Modules (HC-05), Sensors, Motor Drivers, Circuit Design
- Soft Skills: Problem Solving, Critical Thinking, Team Collaboration
